

Late Filing

Dear FCC Commissioners & Staff:

Please allow FREE competition for DSL service!!! I have recently connected a DSL line in my home and I extremely happy with the excellent support & service of my LOCAL ISP- Iglou.com. I doubtful that my local Bell provider would be as helpful or as accessible. My last experience with Bell was very frustrating...voicemails followed by we must comeout, etc, etc. The bottomline is the consumer should have choices and let the FREE markets work.

THANK YOU for your consideration.

Respectfully, R. Curt Boone, Jr.

Sincerely,

R. Curt Boone, Jr.
